BUYER'S GUIDE

The Ultra Water Treatment Solution.

Commercial Reverse Osmosis Membrane Elements

For over 20 years, **R.O. UltraTec** has been manufacturing residential and commercial membrane elements. We offer elements in a variety of material types, sizes and provide services such as custom sizing, private labeling, and drop shipping.

- **ABS Hard Shell** – For Increased Strength and Protection
- **100% Integrity Tested** – For Extended Shelf Life
- **Membrane Material** – The Most Trusted and Recognized Membrane Film Technology in the Industry
- **Flip-Proof Brine Seal** – For Improved Sealing Capabilities

Our advanced membrane manufacturing processes deliver consistent performance and quality, which equipment suppliers and water treatment dealers have come to rely on.

- **HF1:** High Flow – Low Energy @ 150 psi
- **HF4:** High Flow – Extra Low Energy @ 100 psi
- **HF5:** High Flow – **Ultra Low Pressure @ 80 psi**
- **HR3:** High Rejection @ 225 psi

The Top 100

2009

Canada's Biggest Infrastructure Projects

ReNew Canada has compiled our annual report on the Top 100 Canadian Infrastructure Projects for 2009.

This year's report includes over \$1.46 billion of capital for water and wastewater projects.

Seymour-Capilano Water Utility Projects
Project #31 - \$600 Million

This special research report was included in the January/February 2009 issue of ReNew Canada magazine and contains the annual listing of Canada's Top 100 Infrastructure Projects, ranked by value. It describes each project as well as the financing and major players involved. This report is the culmination of hundreds of interviews and twelve months of research to bring readers up to date, comprehensive details about Canada's big-dollar projects.

The Top 100 represents \$61 billion in capital and lists over 200 companies. To order a copy, call Sharlene Clarke at 416 444 5842, ext. 117 or email sharlene@renewcanada.net.

Welcome to the 2009 Buyer's Guide. It's
here that you'll find Canada's definitive
source of information for industry leaders
including manufacturers, distributors and suppliers.

Water professionals in Canada keep a copy of the
guide handy because they know it is a great starting place for finding
the products and services they need. We're confident that you'll be
using the guide throughout the year, too. And it's also available
online at watertreatment.ca.

How to use the guide

The guide is divided into two main sections—Part I provides an
alphabetical listing of manufacturers, distributors, and suppliers and
Part II is indexed into product categories.

The information compiled in the guide was provided by the
product and service providers. Besides basic summary listings and
contact information, some companies provide more detailed and
personal information in the form of full details listings, banner ads,
logos, and showcases.

Purchasing tips

Water professionals demand high quality and high value products
and services. To ensure that you make the correct purchasing decision,
we offer the following tips:

1. Understand your issue. Be sure you can define your problem
and can articulate it. An expert product provider can be of greater
service if customers can accurately describe their needs.
2. Consult with colleagues and associates. It is useful to receive
input from other water professionals who may have similar or
recently purchased a similar good or service.
3. Access CWT's Buyers Guide. Use the guide to contact several
companies that provide the product or service. Ask those
companies for references or information on similar installations.
4. Compare costs. Be sure that you are making accurate
comparisons and that you base your purchase value of the
good or service.
5. Buy confidently. Having done your homework, you can make
the purchase without worrying that you've made the wrong choice.

John Nicholson, Editor
Canadian Water Treatment

MADE BY THE INVENTORS OF THE RIO SYSTEM

PORTABLE RIO **QUICK CHANGE RIO**

Alarm sounds when water contacts panel

Automatic solenoid shuts down RIO system

- Easy and Quick Disconnect
- Useful for home, work, vacation, RV, school and demos
- Produces up to 8 gallons of purified water in 24 hours

- Integrated design with colour-coded fittings
- Fast, easy and hygienic filter changes - no tools required
- Slim compact design, saves valuable space
- High-flow production design

UNDER COUNTER REVERSE OSMOSIS SYSTEMS (R/O), FIRST PATENTED BY NIMBUS IN 1968.

With state-of-the-art manufacturing facilities and distribution centres across North America, the IPEX name is synonymous with quality and performance.

Our Vision / Notre vision

To create a world-class institute dedicated to safe and secure drinking water for the people of Ontario.

Créer un établissement d'apprentissage de classe internationale qui a pour vocation d'assurer la salubrité et la sécurité de l'approvisionnement en eau potable de l'Ontario.

Operator Training Formation des exploitants

Mandatory Courses / Cours obligatoires

- Entry-Level Drinking Water Operator
- Certificate Renewal Course (PWBI)
- Operation of Small Drinking Water Systems Correspondence Course
- Cours de niveau d'entrée à l'intention des apprentis-exploitants
- Cours à l'intention des exploitants désirant renouveler leur certificat
- Cours par correspondance sur l'exploitation de petits réseaux d'eau potable

Advanced Technology Courses Cours techniques avancés

- Ozone • Membrane • Ultraviolet
- Systèmes d'ozonation • Filtration sur membrane • Rayonnement ultraviolet

Specialized Courses / Cours spécialisés

- Optimization • Disinfection • Advanced Water Treatment
- Groundwater • Filtration • Risk Assessment
- Optimisation • Désinfection • Techniques avancées de traitement de l'eau
- Eaux souterraines • Filtration • Évaluation des risques

Municipal Drinking Water Licensing Program Courses

Cours de formation sur le Programme de délivrance des permis de réseaux municipaux d'eau potable

- Drinking Water Quality Management • Risk Assessment and Emergency Preparedness
- Internal Auditing for the Drinking Water Quality Management Standard
- Gestion de la qualité de l'eau potable
- Gestion des risques et planification des interventions d'urgence
- Vérification interne de la conformité à la Norme de gestion de la qualité de l'eau potable

Technology Demonstration Démonstration de technologies

ROBO-CONTROL manufactures battery-operated actuators to remotely open and close hazardous gas cylinder valves such as Chlorine and Sulfur Dioxide. The actuator is designed to mount to the valve without interfering with existing hardware or dispensers. The actuator can have I/O for remote monitoring and control and also integral leak detection. Each actuator has digital display for actual valve position.

Canadian Environmental Directory Database

Canadian Environmental Directory Database

Ideal for businesses, governments, engineers and anyone conducting research on the environment, *the Canadian Environmental Directory database* is one-stop searching for details on government offices and programs, information sources, product and service firms, special libraries and tradeshows that pertain to the business of environmental management.

Enjoy Quick and Easy Access to all the information you need!

The Canadian Environmental Directory is now available through Grey House Publishing Canada's CIRC interface via the Web. Designed for both novice and advanced researchers, this database allows you to conduct simple text searches, powerful Boolean searches, or narrow your search with special index fields.

More than just a name and phone number, listings in the Canadian Environmental Directory database also include:

- staff size
- working languages
- revenue
- founding date
- markets served (domestic or foreign)
- revenue sources
- recently completed projects
- ownership (private, public, crown)

Call 1-866-433-4739 and request your FREE 30-day trial today!

It Isn't Treated Until It's Been Tested.

As the World's supply of quality, consumable water diminishes the demand for fast, effective treatment processes increases. Water professionals worldwide have come to rely on the accuracy and reliability of our digital and analog handheld instruments and in-line monitor/controllers to test and control critical water quality parameters and ensure the effectiveness of treatment systems. Visit myronl.com to find out how our full line of quality instruments can help you meet your water and wastewater needs.

QUICKLY AND ACCURATELY MEASURE:

- CONDUCTIVITY
- RESISTIVITY
- TDS
- pH
- ORP/REDOX
- TEMPERATURE

Simply fill the cell cup and push the button for the parameter you wish to test.

COIN OPERATED WATER VENDING MACHINES

“YOU CAN SELL WATER 24HRS A DAY 7 DAYS A WEEK”

FEATURES

- 4 Selection buttons, programmable for both volume and price, and pause button
- Solid state controller board, LED display
- Built in water meter with pulse fill for exact vends
- MDB coin mechanism, accepts Canadian coins and provides change. Other currencies available
- Stainless steel construction
- 5 GPM U.V. light & carbon filter with flush feature
- Filling Station that will accept containers from 1 to 5 gallons in size
- Safety shutdown in case of system failure
- Optional debit card or dollar bill changer
- Private labeling available

Excaltbur Water Systems

Residential Water Treatment Systems

WATER SOFTENERS/CHLOR-A-SOFT

- 20 YEAR WARRANTY NOT PRO RATED
- 12 VOLT AC FOR SAFE OPERATION
- 27 GPM HIGH FLOW CONTROL VALVE
- ELECTRONIC CONTROL VALVE WITH SELF DIAGNOSTIC FEATURES
- SUPERIOR WATER SOFTENING & IRON REMOVAL
- SIMPLE PROGRAMMABLE CONTROL VALVE

SOFT-TEC NO-SALT WATER SOFTENERS

- 7 YEAR WARRANTY NOT PRO RATED
- ENVIRONMENTALLY FRIENDLY, NO CHEMICALS OR SALT REQUIRED
- NO ELECTRICAL COST
- NO DRAIN OR WASTE WATER
- SCALE PREVENTION IN ALL PLUMBING & APPLIANCES

IRON & SULPHUR ZEN-TEC HYBRID/ZEN-TEC KAIZEN FILTRATION SYSTEMS

- 20 YEAR WARRANTY NOT PRO RATED
- UP TO 40 P.P.M OF IRON & HYDROGEN SULFIDE/HYDROGEN SULFATE
- FLOW RATES UP TO 1000 GPM
- NO CHEMICALS REQUIRED
- FULLY AUTOMATIC ELECTRONIC DESIGN
- 12 & 24 VOLT AC FOR SAFE OPERATION

When Performance & Quality Matters...
CHOOSE EXCALIBUR WATER SYSTEMS

TRUST

Municipalities, Industry and First Nations across Northern Ontario trust the Ontario Clean Water Agency to operate their water and wastewater facilities.

That's because we take our commitment to clean water, community health and the environment, just as seriously as they do.
