

WATER CANADA

Mitigation & Adaptation in the Water Sector

Net Zero and Beyond (page 10)

Trade with China (page 14)

Coastal Communities Adapting Together (page 20)

WATER RESOURCES

12 Data Driven

Developing advanced warning systems to help communities plan more effectively in an era of change.

BY **MEAGAN HINTHER**

CONVEYANCE

18 Model Decisions

Along with its partners, the NRC is helping communities better prepare for floods and droughts.

BY **JULIEN COUSINEAU**

STORMWATER

30 Fast Flows

Climate change is not the whole urban story.

BY **MARY TRUDEAU**

WASTEWATER

32 True Grit

Applying science to improve adaptation strategies related to climate change and grit removal.

BY **MARCIA SHERONY**

FEATURES

8 Road to Resilience

The need for a national strategy to address flood risk.

BY **LAPO CALAMAI**

10 Net Zero and Beyond

A new water management paradigm aims to be energy-positive.

BY **KATHERINE BALPATAKY**

20 Coastal Action

A strategy to unify Canada's coastal communities as they increase preparedness and resilience to climate change.

BY **JIMENA EYZAGUIRRE, MARC NELITZ, NATASCIA TAMBURELLO, COLEEN CRANMER, AND ERICA OLSON**

24 Blue Economy

RBC's landmark Blue Water Project has reached its ten-year mark, with much to celebrate.

BY **KATHERINE BALPATAKY**

26 Green, the Colour of Resilience

The wisdom of green infrastructure for Manitoba's future.

BY **HANK VENEMA**

COLUMNS

14 Liquid Assets

The potential for Canadian trade in China is tremendous, but a measured approach with well-matched partners is necessary.

BY **JEFF SANFORD**

34 Rules & Regs

Planning to adapt to climate change with initiatives, programs, tools, and guidelines

BY **GUY FÉLIO**

DEPARTMENTS

5 Editor's Note

Exciting Times in Water Management

6 Front

Maritimes water-energy innovation
